

## Basic Tree Survey and Inspection – LANTRA

### Course Aim

The aim of this one-day course is to provide delegates with the knowledge required to identify potential tree hazards and report to an appropriate expert.

Although this course is mostly classroom-based, you will be expected to be able to look at a range of trees outside. If you have mobility problems or a medical condition that could have an impact on your health and safety, please let us know prior to the course.

### Who Should Attend?

This course is targeted at those who may have a responsibility for trees in the course of their work. Identifying hazardous trees is a vital part of a number of jobs, from park rangers to estate workers.

Examples would include:

- Local Authority Highway Inspectors
- Forest and Woodland managers
- Park Rangers
- Farmers and Landowners

Additionally, this course may be useful for those who work with trees in a voluntary capacity.

### Course Duration

This is a 1 day course.

### Maximum Delegates

Maximum attendees: 8-10 delegates.

### Agenda

At the end of the course, delegates will be able to:

- State the legal and safety implications of hazardous trees
- Maintain your own health and safety while carrying out a basic tree survey and inspection
- Recognise hazardous trees
- Determine level of risk
- Decide on an appropriate course of action
- Collect and maintain adequate information
- Recognise your own limitations.

### Certification

Upon completion of this course, delegates will receive a LANTRA accredited certificate that does not expire. However, it is advised and is business best practice that delegates attend a refresher course every 5 years.
