

IPAF (Single) Mobile Vertical (3a) - Operator

Course Aim

This industry leading course will provide delegates with the knowledge and practical skills to safely operate powered access equipment.

This IPAF Operator course with practical training session and assessment covers one powered access product - Mobile Vertical (3a).

Who Should Attend?

Those who operate, supervise or manage the use of powered access equipment including scissor lifts (3a).

Those who need to use two categories of powered access equipment should attend the Dual Category course - Scissor Lift (3a) and Boom Lift (3b).

Course Duration

This is a 1 day course.

Maximum Delegates

Maximum attendees: 6 delegates.

Certification

Delegates successfully completing the course will receive an IPAF Certificate and Powered Access Licence (PAL) Card valid for 5 years.

Additional Information

IPAF ePAL

HSS has been awarded an EcoVadis Gold rating, reaffirming our group commitment to sustainability and ethical business practices.

HSS Training are working hard to protect the environment whilst providing quality services to our customers. HSS are aware that the unnecessary printing of paper certificates may negatively impact your environmental aspirations and as well as our own.

For this reason all IPAF certifications are now digital as standard through IPAF Digital PAL Card Licence Application (ePAL); the cost of which is included within your course fee.

However, if it is imperative that you have a paper certificate this can be arranged at the additional cost of £40+VAT in order to cover the necessary costs for processing, printing and postage.
